

**Specification Data**  
**Self Aligning Rotators**  
**Capacity: 100 Tonnes**

**RedRock** rotators are a robust heavy duty design built to withstand the harsh and rugged environments expected in the world of welding and fabrication requirements.

Our welding rotators are selected according to tonnage and dimensional needs of the users. Rotators are designed for the most comfortable and the safest rotation configuration of the work piece. Rotators are ideal solutions for loading and rotating and handling of challenging work pieces. These rotators ensure weight distribution and adjustment of wider diameter spaces without requiring any additional application.

**Power rolls specifications**

Maximum Vessel Diameter +/- 7000mm  
 Capacity 100 Tonnes

	<u>Drive</u>	<u>Idler</u>
Overall Length	4700mm	3950mm
Width	2000mm	1320mm
Height	1400mm	1400mm
Weight	6.8 Tonnes	4 Tonnes
